Limited Submission (LS) opportunities are programs or funding announcements with restrictions on the number of applications or proposals an institution is allowed to submit.

LS serves as a transparent, equitable, and robust system for selecting the most competitive proposals for specified opportunities, while providing actionable feedback for all submissions. LS manages multiple streams of opportunities:

- Opportunities that limit application(s) per institution;
- Ad hoc opportunities identified by staff or faculty;
- Opportunities though the ASU Foundation
- Strategic opportunities

Sign up for weekly notifications at [https://funding.asu.edu/get-notifications](https://funding.asu.edu/get-notifications)

Limited Submissions are posted weekly and can be found on [funding.asu.edu](http://funding.asu.edu). These postings provide a brief description of the opportunity, award amount, a link to the funding agency's site, and internal and external deadlines, as well as any restriction details that are relevant.

To apply to an opportunity, please notify Limited.Submissions@asu.edu, then:

1. Apply via InfoReady Site: [https://asu.infoready4.com](https://asu.infoready4.com)
2. Submissions are evaluated and reviewed by a faculty panel using sponsor guidelines and review criteria
3. Applicant is approved to move forward with submission to the sponsor

Internal Competitions are either solely ASU or multi-institution funding opportunities available university-wide (typically managed by the ASU Research Development office) or managed by a college/school/program. For some competitions, applicants may include other institutions outside of ASU.

Examples of past internal competitions include:

- **Seed or local grants managed by colleges/schools**
  - Fulton School of Engineering White Paper Competition
  - Internet of Things Collaboratory Mini-Grant
  - Collaborative Seed Grants

- **Internal funding competitions to award one centralized sponsored award**
  - Schmidt Futures American Dream Coalition (University Initiative)
  - Arizona Biomedical Research Centre Call for Proposals

- **Multi-Institution funding opportunities**
  - Mayo Clinic – ASU Alliance for Health Care Collaborative Seed Grant
  - ASU- Ben Gurion University collaborative opportunities
  - PLuS Alliance Seed Program

**Benefits of InfoReady include:**

- ASU administrators can actively manage competitions and reviews
- Applicants (internal and external to ASU) are able to use
- Reviewers can access the proposals, review, rate, and provide comments
- Notifications of awards and declinations can be sent automatically from the system
- Progress reports and tracking

If you have any questions, or would like to use InfoReady to host a competition, please contact us at Limited.Submissions@asu.edu.
